PROFESSIONAL SUMMARY

Senior Product Designer with 8+ years in digital design, a Computer Science degree, and postgraduate studies in UX Design and Project Management. For the past 4 years at PJUS, Brazil's largest company in court-ordered government debt (precatórios), I have designed and shipped products where AI is part of the core: I lead Opera, the platform that now sets the company apart in its market; I designed Brazil's first 100% digital precatório purchase platform (R$5M+ in revenue in 8 months); I built the token-first design system used by every product; and in 2026 I shipped 475 production commits as part of the engineering team. I work from research to code: interviews, data-driven validation, Figma, navigable prototypes with Claude Code, and implementation in .NET/Razor/TypeScript, cutting validation cycles from weeks to days.

PROFESSIONAL EXPERIENCE

Senior UX Designer · **PJUS** (legal-asset fintech, Belo Horizonte, hybrid) — Aug 2025 – Present

Senior designer for internal and market-facing products, focused on bringing AI into critical evaluation and decision-making workflows. End-to-end ownership, from user problem to production code, pairing with engineering in Claude Code.

- **Opera, operations management platform (project lead):** UX/UI and development. **475 commits to the main branch between April and October 2026** (23% tests), 12 cross-cutting PRs under feature flags and dual review. Shipped: operator board redesign, real-time chat and negotiator workspace (Aria), AI extraction of data from legal documents with automatic pre-fill of the asset analysis, notary-act automation engine (Intermezzo), notification center, and a native Android app with Microsoft sign-in and push notifications.
- **AI monitoring in production:** designed and built in 3 hours a monitor that reads New Relic every 30 minutes, summarizes with Claude Haiku and posts to Microsoft Teams, with anti-noise rules and automatic work-item creation in Azure DevOps.
- **Method:** specs before code (BDD), feature flags, mandatory visual validation, WCAG 2.1 AA accessibility as a review criterion, privacy by design (LGPD), adoption metrics and UX audits with session replay.
- **Recognition:** PJUS 2025 Award for conceiving Opera, an MVP built from scratch in under 2 months. Speaker at PJUS Talks (cognitive biases in digital products).

Senior Product Designer · **Base2 Tecnologia**, allocated to **PJUS** — Jul 2022 – Jul 2025

Designed most of PJUS's digital products, running interviews and partnering with the growth team: customer platform, back office, RPA, telephony, data enrichment and payment pipelines (B2B and B2C).

- **US Platform (2022–2023):** Brazil's first 100% digital precatório purchase platform, with zero manual back-office steps. CPF, offer, sign-up, documents and acceptance flow mapped with legal and compliance. **R$5M+ in revenue in 8 months**, lower discount rates than competitors, and an operations dashboard covering R$1B+ in accepted offers. Co-branded with XP Asset Management.
- **Estrada Design System (2024–2025):** PJUS's token-first design system: JSON tokens (Style Dictionary), 15+ framework-agnostic Web Components (Lit 3), 150+ icons, Storybook and Chromatic on every PR, and a **token compliance gate in the Azure DevOps pipeline**. Figma-to-code sync.
- **Opera (2025):** concept and MVP of the company's main product, built on the design system, working side by side with development.

UX Designer · **Sensix Agro** (AgriTech) — Mar 2022 – Jun 2022

- Redesign of the Fieldscan product, UX team metrics and OKRs, hypothesis validation through quantitative and qualitative research; heuristic evaluation and design of Management Zones and CEA mapping.

UI/UX Designer · **eMotion Studios** — Nov 2020 – Mar 2022

- Hypothesis discovery, validation and prioritization, market pain research, testing, product ideation and MVP building. Qualitative research for Nubank (2022) with 12 teenagers in 2 cities on how Gen Z relates to money and banks.

UX Designer · **Usemobile** (Ouro Preto) and **ioasys** (Belo Horizonte) — Nov 2017 – Nov 2020

- User research, requirements, Design Thinking, usability testing and high-fidelity prototypes for clients such as **Bosch** (Fleet App, 30K+ downloads), **VLI** (port operations), **Adiq**, **Unimed** (member app), **Alaska Asset** (financial education) and **Noz** (gamified corporate platform, 10+ companies).

Earlier: Freelance Graphic Designer, Caiapó Comunicação (2015–2020) · IT internships: Minas Gerais State Department of Human Rights (2017) and Microsoft Innovation Center PUC Minas, C# and Unity (2014).

SKILLS

Product and design: discovery, qualitative and quantitative research, user interviews, user journeys, information architecture, rapid prototyping, UI design, design systems and design tokens, product metrics, usability testing, WCAG 2.1 AA accessibility, UX writing.

AI applied to product: AI-native design, LLM product design, prompt engineering, design-to-code with Claude Code, LLM-based document data extraction, conversational assistants.

Development: C# / .NET, ASP.NET MVC and Razor, TypeScript, JavaScript, React/Next.js, HTML/CSS/SCSS, Web Components (Lit), GraphQL, SQL Server, MongoDB, Amazon S3, automated testing (xUnit, BDD/Gherkin), feature flags, CI/CD.

Tools: Figma, Storybook, Chromatic, Style Dictionary, Azure DevOps, Git, New Relic, Microsoft Clarity, PostHog, Photoshop, Illustrator.

EDUCATION

MBA in Strategic Project Management · Centro Universitário de Belo Horizonte (UniBH) · 2023–2024

Postgraduate Specialization in UX Design and Agility · PUC Minas · 2021–2022

Bachelor's in Computer Science · UniBH · 2016–2019

CERTIFICATIONS AND LANGUAGES

Google UX Design (Coursera, 2023): Foundations of UX Design; Start the UX Design Process: Empathize, Define, and Ideate.

UniBH (2023–2024): project management, scope, schedule and budget, high-performance teams, business strategy.

Languages: Portuguese (native) · English (fluent).

RESULTS IN NUMBERS

R$5M+ revenue from an MVP · 20+ products shipped · 15+ components and 80+ color tokens in the design system · 475 production commits in 2026 · Opera MVP in under 2 months · 30K+ downloads (Bosch Fleet App).
